This seminar will incorporate a thorough presentation of many of the significant problems that exist with one of the most important positions within a police agency - The police prosecutor.

Some of the issues that will be thoroughly addressed include:

- The power of the police prosecutor and court liaison personnel, managerial prerogative in the selection of the police prosecutor & liaison personnel, handling ALL phases of the criminal case, what can be done to assist the ADA, criminal and motor vehicle appeals to the Magistrate (and then further to the judge), the limitations on the power of the Magistrate tin interfering with the executive process of the police department, major changes to C. 90C- the no fix law, public records- what police records can be withheld from public inspection versus information contained in the court files.
- We will also address the different standards of probable cause that exist in the criminal justice system, e.g., probable cause to arrest versus probable cause for the complaint. What quantum of evidence is required in the complaint application? What if the Magistrate refuses to sign the complaint? Bail hearings and revocation hearings will also be addressed. Dispositions- what is permissible?

*It is absolutely imperative that all police prosecutors attend this presentation!*
